

Unapproved and Misbranded Minoxidil Products on Amazon.com

Taro has become aware of unapproved and misbranded minoxidil products being sold on Amazon.com and other e-commerce sites that appear to have misappropriated our product's FDA approval number in order to be listed with the FDA. Examples include the following products: "DIZOP Minoxidil Topical Gel" and "VIOFAIRY Hair Growth Serum (5% Minoxidil Biotin)".

Taro is committed to the safety and quality of our products, and we monitor e-commerce sites to identify fraudulent products that have the potential to harm our customers. We are in the process of alerting Amazon and other e-commerce platforms of these unapproved and potentially unsafe products so they can be removed from the platforms. To our knowledge, all minoxidil products manufactured by Taro are marketed under the Taro brand or one of our authorized private label distributors. Taro has not authorized the distribution, marketing, or sale of the products identified above.
